NEED FOR REFORM

- Attract and encourage PSP
- Attract foreign investment to fund the sector
- Enact promptly the necessary laws, for regulating measures required to support the electricity policy

POLICY OBJECTIVE

- Short term 3-5 years
- Develop a transparent effective regulatory framework for electricity industry
- Ensure that government direct its interest in the state owned entities and entrenches the key principles of restructuring and privatization in the electric power sector

NEED FOR REFORM

- Attract and encourage PSP
- Attract foreign investment to fund the sector
- Enact promptly the necessary laws, for regulating measures required to support the electricity policy
